

# **The Global Weather Enterprise: Forum & Conference**

**Alan Thorpe**

**11 October 2018**

# Global Weather Enterprise Forum

---

**Goal:** To provide a platform for consultation and to facilitate co-operation, engagement and liaison between the *public, private and academic sectors* in the global weather enterprise for the benefit of all. It will endeavour to build trust between the sectors, identify a common vision and mission in line with the societal needs for information and services provided by the GWE sectors.

**Governance:** Independent body providing a neutral space;  
a Co-ordination Group supports its work: WMO, HMEI, World Bank Group, IAMAS

**Membership:** 12 members - four from each of the three sectors

# Global Weather Enterprise Forum

---

Identifying the attributes of, and ways to remove the barriers to, a 21st century weather information service

- Task 1:** Make all relevant information flow more freely by removing barriers and by supporting a culture that is user oriented and includes all PPA sectors.
- Task 2:** Developing and maintaining the workforce for the GWE
- Task 3:** Strengthening application and basic research and speeding-up the deployment of proven applied science, especially in the areas where it strengthens the GWE
- Task 4:** Advance work on sustainable business models

# Global Weather Enterprise Conference

---

## DATA - BUSINESS MODELS AND POLICIES SHAPING THE FUTURE OF GLOBAL WEATHER ENTERPRISE

**Data** = weather information of all types

**Goal** = enable high quality data to reach all those that need them

**Mechanism** = dialogue between the public, private and academic sectors
